## **QB-ZJ Laminated Tube Shoulder-injection Machine**

### **Introduction:**

Our QB-ZJ Laminated Tube Shoulder-injection Machines are used with plastic injection molding machine from Taiwan Fengtie Company or Jingji Company. The QB-ZJ Laminated Tube Shoulder-injection Machines introduce the injecting preplasticizing by screw, alternate molding by full hydraulic die and double sliding mode. The hydraulic parts of our QB-ZJ Laminated Tube Shoulder-injection Machines are from Taiwan. It is safe and easy to operate. High efficiency is available with the help of our machine. The Tube shoulders made from our machine are smooth and fashionable.

### **Technical Data:**

Capacity	22-24pcs/min
Electricity Power	380 V/50Hz
Power	8 kw
Weight	1500 kg
Size	2300×1700×800 mm
