### **QP-200A Automatic Bag Given Packing Machine**

Extract bag, open, fill, seal, output can be achieved in our Automatic Bag Given Packing Machine. The testing device of our machine avoids waste in feed materials because it would not work when the bag is not opened. It avoids waste in packing bags because it would not seal when there are no materials in the bag. The machine can extract the different size bags by handle adjustment. The bag can be filled with two or three kinds of materials. It also prints date, exhausts, aerates, perforates and prints anti-counterfeiting sign. It also can be equipped with dust removing plant. The inner wall of the seal can be cleaned. The powder package can be solved with our machine. QP-200A Automatic Bag Given Packing Machine has the following advantages: auto, high quality, to improve the environment, high efficiency, easy to operate, easy to maintain, few Vulnerable Parts.

#### **QP6-200 Technical Data:**

Size	According your requirement
Station	6
Packing Capacity	15-30
Bag Size	( w ) 100-200mm(L)100-300mm
Filling Capacity	1000g(max)
Seal Method	Hot Seal

Packing Material	Can be hot Sealed
voltage	AC , 380V±10% , 3-\\phase,50Hz
Weight	Approx.650kg
Power	1 . 5KW

**CB8-200 Technical Data:**

Size	According your requirement
Working Station	Eight-working Station
Packing Capacity	20-45
Bag Size	100-200mm(L)100-300mm
Filling Capacity	1000g(max)
Seal Mode	Hot Seal
Packing Material	Can be hot Sealed
Voltage	AC , 380V±10% , 3-\\phase,50Hz
Weight	Approx.1200kg
Power	2 . 0KW

**Application:**

QP-200A Automatic Bag Given Packing Machine can be used with multihead computer combination scale, Screw Measuring Machine, dosing-cup Measuring Unit, Liquid Measurement machine. It is widely used in the packing of the following listed bellows:

1. Granules: flavoring, corn, seed, granulated sugar, monosodium glutamate, nutlet, salt, pesticide, fertilizer, feeding stuff, etc.
2. Powder: flour, rice flour, corn, amyllum, additive, milk powder, etc.
3. Definite shape objects: Candy, biscuit, cake, pickles, commodity, etc.
4. Oddment: Grain (rice, wheat, chestnut, corn, jowar), Macaroni, legume, stationery, chandlery, commodity, etc.
