

QS-BX Automatic Stuffing Machine

QS-BX Automatic Stuffing Machine is an optimal choice for moon cake manufacturers. You can produce delicious moon cakes with ornate patterns with the help of our machine. Our QS-BX Automatic Stuffing Machine has the following advantages: auto control, high precision, low cost. Two agitating shafts are used in the conveying device. Parallel linkage is also used. There is no elbow outside.

Features:

1. Keep the stuffing's oil due to the low pressure. The moon cakes are delicious and with ornate patterns. The moon cakes produced by QS-BX Automatic Stuffing Machine are similar to manual moon cakes. Moon cakes of various fillings are available with the help of our Automatic Stuffing Machine.
2. You can choose the suitable stuffing quantity according to your requirements with the help of the imported Frequency Converter.
3. The design of the moon cake molding cutter is reasonable, so the moon cakes can be produced with ornate patterns.
4. Material: Stainless steel.

A compact structure and easy to clean.
