QY-KFG Oral Solution Filling and Sealing Machine

QY-KFG Oral Solution Filling and Sealing Machine is a host computer of an oral solution production line. It is mostly used in filling, capping and sealing of ring-pull straight bottles. It fills liquid by partial tracking and conveys the cap by electromagnetic oscillator, seals by 3 centrifuge blades. It would not fill and seal when there is no bottles. The QY-KFG Oral Solution Filling and Sealing Machine can not only be used in filling, but also in sealing. It has an advanced design with a compact structure. Our QY-KFG Oral Solution Filling and Sealing Machines meet to the GMP standard.

Technical Data:

Bottle Size	10-30ml
Capacity	60-80bot/min
Precision	$\leq \pm 1\%$
Capping Rate	$\geq 99\%$
Electricity Power	380V/50Hz
Power	1kw
Weight	600kg
Size	1400×800×1600mm
