QY-LP Flat Bottle Arranging Machine

QY-LP Flat Bottle Arranging Machine is widely used in arranging round or flat bottles in pharmacy, drink and cosmetic industries. Different from the traditional Directional Screening Bottle Arranging Machine, our machine can reverse the reversed bottles. The QY-LP Flat Bottle Arranging Machine is easy to connect with other devices. The machine is based on Speed Variable Motor. The bottles only contact with stainless steel, silica gel and ultrahigh molecular polyethylene during the arranging process. It is controlled automatically, and anti-noise, low consumption, high capacity and no air pollution. It especially can be used in large scale production.

Technical Data:

Bottle Size	10-200ml
Capacity	60-120bot/min
Qualified rate	≥99%
Electricity Power	220V/50Hz
Power	0.5kw
Weight	350kg
Size	1200×1100×1400mm
